

## ***Residential Remodel/Addition***

**What is an Addition** – Any construction work done to the main building that results in the addition of square footage to the footprint of the house. Additions could be a sunroom, a bedroom, a bathroom or any other room enclosed that is attached to the main structure.

**What is a Remodel** – Any interior or exterior construction work to the main structure such as moving walls, replacing windows, any major electrical, plumbing, and/or mechanical work.

### ***Permit Submittals***

<b>Residential Addition</b>	<b>Residential Remodel</b>
Residential Permit Application	Residential Permit Application
(2) Energy Report (IECC compliance)	(2) If installing new windows as part of the remodel. (IECC compliance)
(2) Sets of floor plans to include all Electrical, Mechanical and Plumbing.	(2) Sets of plans to include all Electrical, Mechanical and Plumbing, if applicable.
Contractor Registration - Electrician, Plumber, Mechanical	Contractor Registration - Electrician, Plumber, Mechanical
(2) Site plan showing distance from addition to property lines and other structures and showing all easements and existing structures on property. Must include Septic spray area if applicable.	N/A
(2) Foundation and Roofing plans	N/A

**What do I need to install a Deck?** - Because they are not covered, decks are not considered additions to the footprint of the house nor do they have to meet setback requirements. Any deck 30 inches off the ground requires a permit. Submit a residential permit application and a drawing showing the house and where the deck is to be constructed. Include the materials to be used and a description of how the deck will be anchored to the ground.

**Do I need a permit for a Concrete Patio?** Concrete patios do not require a permit if they are not attached to the house foundation, however, if you plan to cover or enclose this area at a later date, a permit for the concrete is a good idea so we will have a record of the structural strength of the patio.

***The City of Wallis has adopted the 2006 International Building, Residential, Plumbing, Mechanical, Fuel / Gas and Energy Conservation Codes and the 2005 National Electrical Code.***

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All permits require final inspection.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
